

Unofficial List of Restricted Brands that You Cannot Sell on Amazon

Note: some sellers are approved to sell these brands, therefore you WILL see third party sellers selling them. To gain approval, you need to become an authorized reseller of the brand and you need to get this approval from the brand themselves first, then apply to Amazon. You cannot just purchase these brands arbitrage and sell them on Amazon.

Also remember, this is an Unofficial list and there is no official list. If in doubt, contact Amazon before purchasing any stock of a name branded product.
